

GroupThink
Sprint 2 Report, 11/4/16
Team: Sean Dougher, Michael Gates, Ryan Monroe, Savanna Jordan

- **Actions to stop doing:**
 - The team should stop procrastinating.
 - The team should stop worrying about who “owns” which task/feature and start collaboratively working on the product as whole.
- **Actions to start doing:**
 - The team should specify clearer definitions of done for future sprints. This will help them avoid stale scrums and give the team a more concrete goal to reach.
 - The team should allocate more time to certain tasks
 - The team should focus more on test driven development
 - The team should start working earlier on in the sprint.
- **Actions to keep doing:**
 - The team should continue to use resources such as Slack and mobile messaging to communicate.
 - The team should continue to use Trello to track our development in each sprint and our overall progress.
 - The team should continue to commit to Github frequently.
- **Work completed/not completed:**
 - Completed User Stories:**
 - *As a project owner, i would like to edit a project*
 - *As a user I would like to be able to distinguish between open and closed projects.*
 - Incomplete User Stories:**
 - *As a user I want to be able to view all member profiles in my class so I can search for teammates.*
 - *As a project owner, I would like to see matching students so I can assemble a team.*
 - *As a user I want to be able to be in multiple classes so that I can use GroupThink with more than one group project.*
 - *As a user, I would like to view other user profiles so that I can evaluate possible teammates.*
 - *As a user, I would like GroupThink to be a hosted website, so that I can access the site from anywhere. (optional)*
 - *As a project owner, I would like to be notified if someone requests to join my project. (Optional)*

- **Work completion rate:**

- 2 User Stories were completed during Sprint 2
- Total number of estimated ideal work hours completed during Sprint 1:
 $6+9+5+3+2 = 25$ Hours
- Sprint 1 consisted of a total of 14 days.

User Stories/Day = $5/14 = 0.36$ stories/day

Work Hours/Day = $24/14 = 1.7$ hrs/day
